

Garden Decking

Extra Freedom, No Maintenance, Contemporary Outdoor Living

transform your garden

with the maintenance free range of
PVCu decking from Liniar

Extend your home into the garden with the wide range of decking designs from Liniar. PVCu can now be used to create a modern, outdoor living space that you can use all year round.

Utilise the extra space to suit your lifestyle; lounge in the sun, dine outdoors, relax with a book or simply watch the world go by.

Take advantage of the long summer evenings and view the sunset with a chilled glass of wine, or invite friends and family over for a meal in the open air.

The Liniar range of PVCu decking systems offer a maintenance free solution to your outdoor living needs.

All our systems are professionally fitted by an approved installer via our nationwide network.

decking fits your lifestyle

choice of colours and designs

Linlar fencing and decking systems are available in a choice of four colours – white, beige, green or brown – a feature exclusive to our range, offering you more design freedom to match your conservatory or surrounding area.

accessorise your decking

To complete your decking Linlar offers a range of stylish accessories, including decorative post caps and lights, to add that finishing touch to your new outdoor living space.

There is a choice of co-ordinating post caps in three styles – plain, gothic or acorn – to add a striking effect to the decking area. Our post top lights, in either coach or globe style, will illuminate your garden and create an inviting evening ambience.

Globe

maintenance free and safe

Unlike more traditional alternatives, the Linar range of PVCu decking doesn't rot and never requires regular maintenance. Simply clean occasionally with warm soapy water. The PVCu system contains waterproofing properties and the decking is manufactured with an anti-slip tread for additional safety, particularly when the surface is wet.

The decking is constructed onto a galvanised steel sub-frame, which offers greater strength and durability than more traditional materials. Additionally, our PVCu components carry a Class 1Y fire rating for surface spread of fire.

Either steps or ramps can be incorporated into most designs, providing an attractive, personalised entrance or easy access for those with mobility difficulties.

For more information contact your local stockist ([see back page for details](#))

Some of the photography featured in this brochure has been supplied from Linar approved stockists. Therefore, some components may differ slightly from items illustrated.

sit back, relax and enjoy the views...

Create your own individually designed garden deck and enjoy the benefits of an outdoor living area. From large decking areas adjacent to conservatories, to smaller secluded areas - Liniar systems are designed to meet the needs of today's lifestyles, a low maintenance, high quality product.

The Liniar decking system has been developed to provide bespoke solutions based on available space and the surrounding landscape.

Liniar offers a wide range of accessories to add the finishing touches to your deck, see inside for more details.

All Liniar products are manufactured in the UK and many are produced using a high percentage of recycled materials.

Install a contemporary environment for the whole family to enjoy with a PVCu decking system from Liniar.
